1. Installation

1. Switch your Android device to “Developer Mode”
2. Connect your device to the PC.
3. Open the application on Android Studio on your PC.
4. Make sure your device’s name is shown on the upper right (as shown in image[1])
5. Click on the green “Play” button in Android Studio. (as shown in image[1])
6. The app is installed on your device.

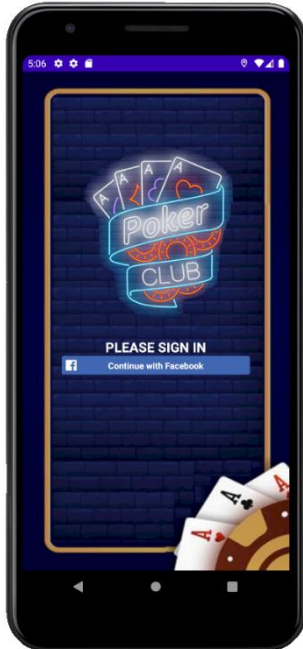

[1]

2. Sign In

In order for a user to sign in to the application, there are two options :

1. The user has not signed in before, or has signed in but logged out :

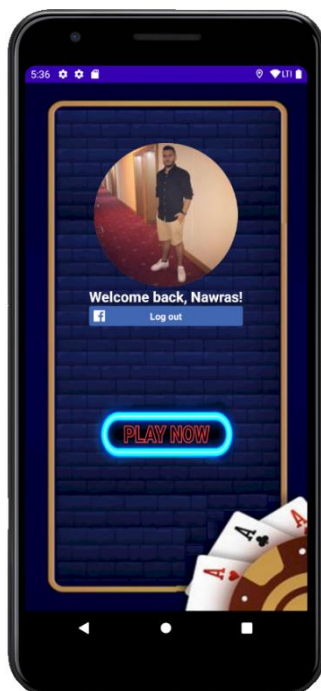

1. Click on “Continue with Facebook”.

2. A Facebook login window will show up. The user needs to fill his/her facebook email and password.

3. After successfully putting the right details, the user will need to approve the app permissions to access some of his/her facebook information such as : Name, Facebook ID, gender, and profile picture.

4. The user has successfully logged in and will be moved to the next view.

2. The user has already signed in before without logging out:

1. A welcome back message will show up, with the user's Facebook name and profile picture.

2. The user only needs to click on “Play Now” button.

3. The user will be moved to the next view.

3. Choosing A Table

Using the app's scroll view, the user can scroll between the possible tables and choose the one he/she prefers.

There are four tables available :

1. Table 1 - Stakes 1\$/2\$
2. Table 2 - Stakes 5\$/10\$
3. Table 3 - Stakes 25\$/50\$
4. Table 4 - Stakes 50\$/100\$

On each one of the tables, six players are allowed to play and an unlimited number of spectators.

The difference between each table is the blind bets. The smaller amount represents the small blind, and the bigger amount represents the big blind.(1) For example, on Table 1 the small blind is 1\$, and the big blind is 2\$.

After choosing and clicking on the desired table, the user will enter the table he wants, as a spectator.

(1) Blind bets are usually used to stimulate action and initiate play. Blinds are posted before the players look at their cards. Blinds are part of a player's bet. Each round different players initiate the blind bets according to poker rules.

4. Spectating A Table

When entering a table, the user joins the table as a spectator. The user spectates everything that happens on the table and gets updated constantly.

Buttons

Mute Button :

Mutes the game's audio. No sounds will be played at any point of the game.

Unmute Button :

Unmutes the game's audio. Sounds will be played when clicking on certain buttons and after certain actions in the game.

Refresh Button :

Sends an update to the user. If the user feels like the game is stuck or he has not got any updates for a long time, this is the button to solve the problem. When clicking it, the user gets the most recent table status.

Sit Button :

The user becomes a player on the table. He/She sits on the seat next to the sit button he/she clicked on. The user's cards will be dealt after the current round is finished or until a second player enters the table if there are less than two players.

Menu Button :

Clicking on the "Menu Button", will open a small Menu with some options, in this case (Spectator Mode) only one option is available, which is "Exit". Choosing "Exit" option will move the user from the table to the previous view (Choose a table) and he will not be a spectator anymore.

5. Playing on A Table

After clicking on one of the sit buttons, the user becomes a player on the table and will have more buttons and options than a spectator. The player will always see himself on the bottom seat, for a better, more comfortable playing experience.

The user usually sees the following view whenever his turn to play comes. The player has all the buttons that were mentioned in the spectator mode, but some more information and buttons are displayed in player mode whenever the player's turn comes.

Information Displayed

1. Time Left :

On the bottom-right of the screen, A countdown timer shows the player how much time is left for him to play. Each player has 30 seconds to play, if the time passes without playing, the player will be automatically folded.

2. Name and Balance :

On the bottom-left of the screen, the player's name and balance are displayed.

3. Your cards :

On the bottom-middle of the screen, two opened cards are displayed, which represent the player's dealt cards for the current round.

4. Floor Cards :

Floor cards are displayed on the middle of the table, and each round more of them will be opened according to poker rules. (Five cards are dealt on each round in total)

5. Pots :

The pots are displayed around the floor cards, The main pot is the one shown in the Screenshot on the left, and more pots can be opened and displayed according to poker rules. (5 is the maximum number of pots possible in a 6 players game).

Buttons

Fold Button :

Clicking the fold button, means the player wants to discard his hand and forfeit interest in the current pot. No further bets are required by the folding player, but the player cannot win.

Check Button :

The check button is displayed only if no one has yet opened the betting round and clicking on it means the player wants to pass or check, which is equivalent to betting zero and/or to call the current bet of zero.

Call Button :

Clicking the call button means, the player wants to match a bet or match a raise. A betting round ends when all active players have bet an equal amount, or everyone folds to a player's bet or raise. If no opponents call a player's bet or raise, the player wins the pot.

Bet Button :

Clicking the bet button means, the player wants to make the first voluntary bet in a betting round. A scroll view will be displayed for the player in order to put the amount he wants to raise(See [1] for example).

Raise Button :

Clicking the raise button means, the player wants to increase the size of an existing bet in the same betting round. A scroll view will be displayed for the player in order to put the amount he wants to raise(See [1] for example).

Menu Button :

Clicking on the "Menu Button", will open a small Menu with some options, in this case (Player Mode) two options are available, which are "Stand Up" and "Exit". Choosing "Stand Up" option will move the player stand up from the table and become only a spectator. Choosing "Exit" option will move the player from the table to the previous view (Choose a table) and he will not be a spectator anymore.

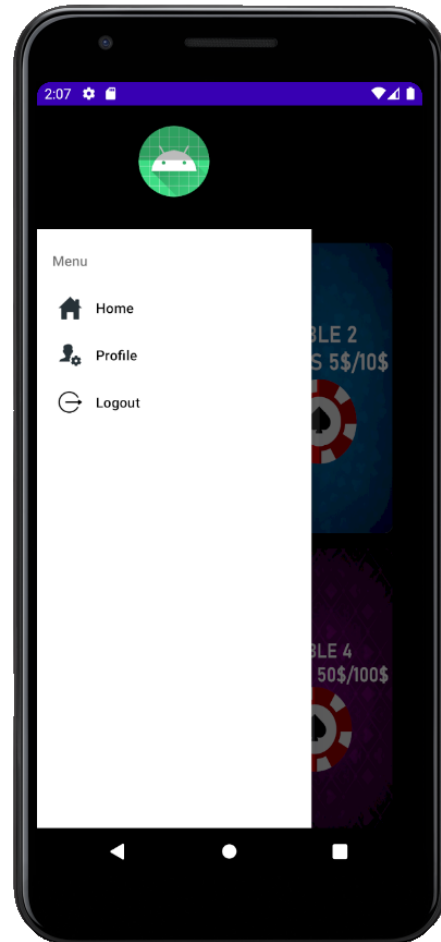

[1] "Scroll to set amount of bet" window

6. Navigation Menu (Home, Logout, Your Information) :

When the user is on the “Choose a table” view. A menu button is displayed on the top-left of the screen, as shown in picture [2], clicking on it will open a navigation menu, as shown in picture [3].

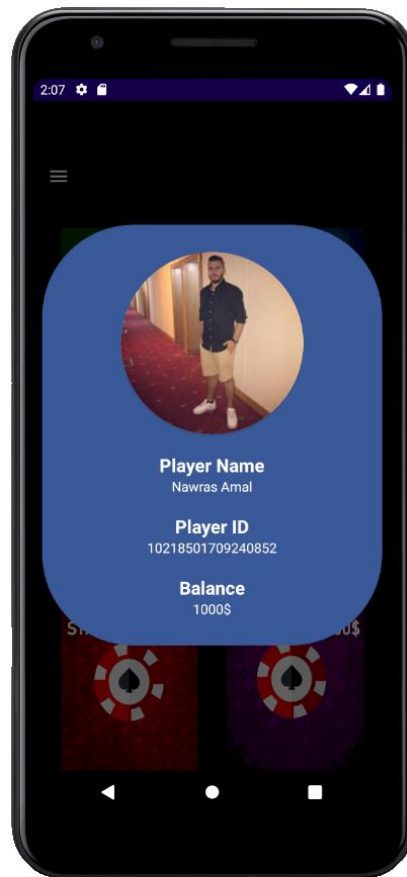

[2]

[3]

In the navigation menu, there multiple options :

- **Home** : Returns the user to the “Choose a table” view.
- **Profile** : Displays the user’s information : Name, ID, and balance. As shown in picture [4] in the next page.
- **Logout** : Returns the user to the first page, in which he could log out by clicking on the Facebook logout button.
